

Volunteer/Officiating Point System

The point system is intended to ensure family involvement by providing various volunteering opportunities for the Calgary Tritons Summer Swim Club. It is meant to encourage participation through a variety of fair opportunities which is imperative to the overall operations of the club. It is also intended to support swim meets throughout the region by promoting officiating and other positions including the advancement of current officials certification.

For the 2025 Season, each family will need to earn **5 points** (ending with the annual AGM in September). Failing to comply with the season obligation would incur a fine of **\$30/point** of obligation not met.

Point system accountability will be based on an honour system. Following volunteering or attendance, please complete the online form at <https://www.calgarytritons.ca/volunteering/> to submit your points. You will require the link to be able to access this reporting page, so please save it to your bookmarks. Please complete the form each time you earn points. There is no limit on the maximum points that a family can earn. Families must make all reasonable efforts to meet point obligations. Final decision on fines will be at the discretion of the Calgary Tritons Board.

NOTE:

1. *Tritons Swim Meet Bond - Families are required to work a minimum of 2 shifts at the Tritons Swim Meet. The first shift **only counts towards your Tritons Swim Meet Bond of \$150 per family**, families do not receive volunteer points for this shift. Any subsequent shifts count as points towards your volunteer bond requirement.*
2. *The **Required Casino Shift does not count** towards the Volunteer/Officiating Point System.*
3. *To fully satisfy the Volunteer/Officials I Bond, at least one parent in each swimmer family is required to fully be certified in Level I before Regionals within the season. Every volunteer shift that is worked towards the certification will be counted within the point system.*
